

About Us

Dear Friends,

Thank you for taking the time to learn more about Northend Laundry. We look forward to introducing ourselves and our business to you.

As the only locally owned and operated commercial laundry service provider, Northend Laundry has earned the trust and confidence of our partners by providing exceptional rates, superior customer service and unmatched local customer care. We are a team of entrepreneurs who started in downtown Detroit, but our business has since grown to a number of locations. As a group of professionals from the real estate, multifamily, laundry and business management background, we saw how laundry services in Detroit are being neglected by providers and abused by national companies. With over 30 years of business and laundry experience, we created a proud local company whose core mission is empowering our customers and supporting Michigan, Ohio and beyond.

Throughout our years of public and private service, our experience has taught us there is nothing more important than customer care, which is why we made it the core of our business model. We believe in going above and beyond to deliver the best customer service possible, because we're not just doing business- we're building partnerships.

We look forward to earning your business and spending every day thereafter proving you made the right choice.

Shimon G. Levy

Testimonials

"Consistently provides superior service by immediately addressing any inquiries or concerns. They have great quality machines and are friendly."

Juanita Walker | Property Manager

"Flawless transition from our old vendor, extremely responsive to our site team and residents."

Aaron Lewis | Director of Operations

"Northend Laundry has given us great service with an excellent, top-of-the-line product to match. Partnering with Northend Laundry made life on our property easier for our residents and staff!"

Mary George | Resident Manager

"Not only was the implementation team professional and accommodating, they also made sure that our staff was trained properly. The residents are very happy with the new equipment."

Sheldon Olson | Vice President
